Remember Always, that Whispered Statements Are Not Facts !

+++ +++ +++

The Toronto Saturday Night, the outstanding Conservative paper, says that there is absolutely no question of the honesty of the Government.

The business of government has been ably handled.

Taxes have been reduced, debts paid off, and business increased.

Why Vote Against a
Government that Has Been
Both Honest and Efficient ?

Which do You believe in:

- (1) High Tariff and higher prices to aid the manufacturer, or
- (2) Low Tariff and low prices to aid the consumer ?

The Record of a Man:

Homesteader ;
Member of Parliament ;
Premier of Alberta ;
Minister of Interior ;
Canadian Representative at
Geneva :
Twenty-two years of public
service.

Does Not Such a Record
Deserve Your Support ?

Vote For **Stewart !**

About the Roads.

A controversy has arisen over the construction of the two miles of road between sections 32-29 and 31-30, from Fred Tyrkalo's corner south, in 52-1w5. The impression seems prevalent that the work was done at the instigation of the Provincial Government.

The fact appears to be that the work was projected by Inga municipality, this piece of road being in Reeve Goerz' division, No. 6.

A rule of the Dept. of Public Works is, that any R. M. which wishes may apply the government grant for that year on any piece of road it chooses—the municipality paying half, and the Government half, as long as the Government's liability for this does not exceed the stated grant.

A piece of work being carried out at present along this line in Inga municipality is the three-mile stretch from Duffield north to Jasper Highway. This is being put in as a standard grade, with the expectation of it being gravelled next season. It is the intention to have the Tyrkalo two-mile road gravelled next season.

Some objection to this latter piece of work has been made by those who use the Edmonton Beach road, running from Meridian road to Andy Kotaherofsky's corner, and who appear to think they have been neglected.

Meeting of U.F. Constituency Association.

A meeting of Stony Plain Constituency Association was held in Royal hotel on Friday last, with Mr Broadstock in the chair. Delegates were present from a number of the U.F. Locals. Business in connection with the recent Provincial election was transacted, and the expense accounts passed and ordered paid. Another meeting was planned for this week, at which a larger attendance is expected to be present. It is the intention of President Broadstock to have meetings of the association held regularly every month.

Pool Sets Grain Payments.

The initial payments for the 1930-31 grain crop as announced by the Canadian Wheat Pool are set as follows: Wheat, 70c per bushel on No. 1 Northern, Fort William; Barley, 25c per bushel on No. 3 C. W.; Oats, 30c per bushel on No. 2 C. W. July 15 was "cut off" date for the 1929-30 pool, so that all grain delivered after that date is credited to the 1930-31 pool.

Warning to City Shoppers!

Edmonton Bulletin, June 17: According to information received by civic officials, there is an epidemic of "short weighting" in the City, and as a result the public are being defrauded. Short weights Officer McCallum will assist in the enforcement of the Weights & Measures Act. Special attention will be paid to the weights of meat and bread etc.

Marketing and Distribution

The problem with which industry is confronted today is marketing, declares Donald M. Marvin, economist, in the monthly letter issued by the Royal Bank of Canada. To quote Mr. Marvin:

"Early economic thought had its birth in a philosophy of trade, but this line of thought was rapidly displaced by theories concerning production. In theory, trading operations became, a mere adjunct to productive processes, and, except as regards foreign commerce, occupies a very subordinate place in economic literature. The engineering genius of the world has been focussed on methods of manufacture. The last half century witnessed the growth of large scale production and remarkable improvements in productive efficiency, but relatively speaking, distribution has escaped attention. Today this is changing; the problem with which industry is confronted is that of marketing."

While increased attention is being given to the principles and practices of marketing, data relating to this field are far less comprehensive than for other branches of human activity. Population, production, prices, export and import, and many other kinds of statistics are available in abundance and in a high degree of excellence. Official statistics relating to agriculture, mining and manufacturing have been collected for many years. The number of persons engaged in these activities is known, together with varied information concerning the quantity and quality of their products. There are no comprehensive statistics of distribution and it is in this field that the need for further information is undoubtedly most acute.

The relative merits of the chain store, department store, mail order house and the local independent dealer have long been the subject of controversy and speculation. The fear that the independent merchant is being crushed to the wall by an over-powering competition has frequently been expressed. What the actual situation may be, not only as regards retail trade as a whole but as regards its different branches, can only be discovered when adequate information concerning distribution is available.

Urgent necessity has moved many private concerns to seek information in this field, but private enterprise has gone about as far as it can go in providing this information. Unfortunately, the results have been incomplete and only serve to emphasize the necessity of a comprehensive statistical study of the subject. The first requisite for such an analysis of distribution is a census of all manufacturing, wholesale and retail establishments which are engaged in distribution. Such a survey will be undertaken by the Dominion Bureau of Statistics in connection with the regular decennial census in 1931. The schedules will contain questions relating to the kind of business, number of employees, salaries and wages paid, inventories, expense of doing business and capital invested.

This census will be of great benefit to all those who wish to make an intelligent study of the problem relating to marketing in Canada. It will supply the basic statistical material required, and provide a comprehensive picture of the various outlets for an extensive list of commodities and groups of commodities. The relative proportion of cash and credit sales will be given. Presentation of the data in the form of averages will furnish a basis with which individual organizations may judge their own results. A picture of consumer demand in each section of the country will be presented, together with information showing the various types of outlets through which they are now reached. Such data will be invaluable in the preparation of advertising and sales campaigns. While the advantages of this type of information to manufacturers and distributors is obvious, the fact that the consumer will benefit through the economies which should result, should not be overlooked.

Studies relative to the cost of living will be assisted by data showing the percentages of commodities purchased in different types of outlets, groups of products. Special methods of distribution adapted to certain districts will be shown, and additional light will be thrown on the movement of commodities between the various provinces of Canada. The compilation of these statistics and others of a like character should produce material of substantial benefit to industry and trade.

The success of this survey will depend very largely on the wholehearted co-operation of those who supply the individual returns. The need for the information has become particularly urgent as advances in methods of production have pressed the problems of distribution more and more upon the attention of business leaders. With the added information made available, a real analysis of the problems of distribution will be possible and more effective measures devised for their solution.

Saskatchewan Power

Seven Hundred and Fifty-Eight Miles Of High Tension Lines To Be Built This Year

The Saskatchewan Power Commission is calling for tenders for the building of 758 miles of high tension lines to make available electric energy for the use of some 50 towns and villages throughout the province, suitable so that the lines can be completed and in operation by the end of

October or beginning of November. The power will be supplied by plants located at Saskatoon, Prince Albert and Moose Jaw.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Vulnerable To Air Attack

Naval Vessels Of Every Type Are At A Disadvantage

Improvements in air warfare are much more important than the public has been permitted to know. General William Mitchell was a little ahead of the times when he asserted that battleships had been made obsolete by aircraft developments. Nevertheless, naval vessels of every type are vulnerable to air attack. France's superiority to Great Britain in aircraft is so great that the British Navy, whatever its type of vessels, is at a disadvantage.

Wheat Acreage Less

Decrease In Acreage As Compared With Last Year, Is About 3 Per Cent.

Total estimated acres sown to wheat in Canada for the 1930 season is 24,583,300 acres, as compared with 25,255,002 acres finally reported for 1929, according to the weekly crop report recently issued by the Dominion Bureau of Statistics. This is a decrease of 671,702 acres, or about 3 per cent.

The area of fall wheat to be harvested is estimated at 636,000 acres as compared with 834,284 acres in 1929, a decrease of 197,884 acres, or 24 per cent.

Spring wheat occupies 23,947,000 acres, as against 24,420,718 acres in 1929, a decrease of 473,718 acres, or about 2 per cent.

Cereal crops show increases, according to the report: oats from 12,479,477 acres to 12,815,000 acres; barley, from 5,925,542 acres to 6,050,000 acres; rye from 991,944 acres to 1,092,200 acres. Fall rye occupies 765,400 acres as compared with 664,193 acres in 1929 and, spring rye 326,800 acres as against 327,751 acres last year.

Flaxseed shows an area of 451,500 acres as compared with 382,359 acres in 1929.

The area planted to potatoes is estimated at 557,000 acres, as compared with 543,727 acres, an increase of 2 per cent.

Persian Balm invests every woman with subtle charm. Delicately fragrant. Cooling and healing. Disperses all roughness or chafing. Makes skin delightfully soft-textured. Every woman should use this perfect toilet requisite. Delicately beautiful — refinement — Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm, unhesitatingly choose Persian Balm.

Icebound Ships Are Freed

Held In Ice Since Last September Are Finally Liberated

The icy embrace of the Arctic Ocean has at last released its grip upon the American fur trading ship "Nanuk" and the Soviet steamer "Stavropol" held icebound in Siberia since last September.

The "Nanuk" was freed recently when the packed ice moved off-shore while a little later the ice broke up in the bay, freeing the "Stavropol." It was to the "Nanuk" that Carl Earl Eichen and Earl Roland were flying from Teller, Alaska, last November when their plane crashed near North Cape, killing both of them.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. When the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to a normal bodily trim and normal happiness.

Canadian Destroyer Launched

Destroyer "Saguenay" Is Launched At Southampton, England

The new Canadian destroyer "Saguenay" was launched at Southampton, England, from the Thornycroft yards recently, in the presence of a large and interested crowd. Madame Desbarats, wife of G. J. Desbarats, Canadian Deputy Minister of National Defence, performed the christening ceremony.

A sister vessel, the "Skeena," is to be launched in September. The two destroyers are of special design for use in Canadian waters. They are of 1,330 tons displacement, with a length of 310 feet and a speed of 35 knots.

The "Skeena" and "Saguenay" will replace two destroyers now on loan to Canada for patrol purposes, etc., from the royal navy.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Canada's Forests The forests of Canada are, in the aggregate, the second most important natural resource, being exceeded in actual value of products by agriculture alone.

Minard's Liniment checks Colds at once.

Don't Gamble With Health

We all know health demands absolute inner cleanliness. But what we often don't realize is the risk we take when we use harsh, gripping purgatives that create a strained, unnatural condition.

ENOS is pleasant, gentle, safe and sure.

A daily dash of ENOS "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

ENOS "FRUIT SALT"

British Naval Estimates

Additional Estimates Call For Expenditure Of About \$1,000,000

The British admiralty has published additional estimates for naval construction for the current financial year, in which £208,200 (about \$1,000,000), is asked. The amount will be used for construction, allowed Great Britain under the London treaty.

Of the supplementary estimate, £133,600 is required to meet costs to submarines this fiscal year on three submarines of the 1929 program, construction of which had been deferred pending conclusion of the naval treaty.

The balance of \$24,000 will be devoted to the new construction program for 1930.

German Aircraft For Canada

Representative Of The Junkers Aircraft Corporation Visits Dominion

German aircraft builders are well aware of the potential market for machines in Canada, and the Junkers Aircraft Corporation, of Dessau, even anticipates assembling certain of its various types in the Dominion. One of the company's representatives is now in Montreal to investigate the situation, and will use one of the Junkers monoplanes for demonstration purposes. It is expected that he will remain several months to discuss conditions and prospects with leaders in aviation.

Millers of Great Britain and On The Continent Speak Highly of Garnet Wheat's Milling Value

Ottawa, Ont.—Considerable enthusiasm was expressed among millers of Great Britain and on the continent who investigated Garnet wheat as to its milling qualities. A report by L. H. Newman, Dominion cerealist, on the result of the investigations of a specially bagged shipment of this blend of wheat overseas has been made public. For a time at least Garnet should be shipped as a separate variety, instead of mixed with Manitobas. This would give the millers an opportunity of knowing the variety they were dealing with and they could treat it to the best advantage.

Garnet wheat, an early maturing variety of hard red spring wheat, was first available to Canadian farmers for testing in field areas in the spring of 1926. Since then it has become increasingly popular with growers of wheat in the prairies, particularly in the northern districts. The question arose should Garnet be allowed to go into the highest grade of Manitoba Northern wheat without restriction of any kind or would it be preferable to set up at least one or two separate grades for the accommodation of the variety or to continue to handle it as at present.

The Federal Department of Agriculture decided to submit Garnet to test by millers in the United Kingdom, and in different European countries. A year ago 6,700 bushels were shipped overseas to men expert in milling to obtain their opinions as to its suitability. These men were asked a series of questions, and Mr. Newman's report includes the replies they made.

In his summary of the results obtained from this test Mr. Newman states that while practically all investigators have expressed the opinion that Garnet wheat or mixtures containing the same, might have to be "conditioned" a little differently than would be the present Manitobas, yet this fact did not seem to be of serious moment.

On the other hand, a number of investigators spoke with considerable enthusiasm of the good milling qualities of Garnet wheat when milled alone or in mixtures. It should be kept in mind, however, the summary explained, that in both Great Britain and on the continent it is usually milled at a higher percentage moisture content than is the case in Canada, which fact may account for the relatively good milling behaviour of this variety in the Old Country tests.

The summary continues: "The general attitude of practically all of those who investigated this wheat in England and on the Continent during the past season, seems to have been pretty well expressed in the words of Dr. Kent-Jones, whose concluding statement is repeated as follows:

"Garnet wheat, both in milling and in baking, has certain pronounced characteristics. Millers will always be faced with the fact that Garnet will give stability to their blends but not quite the spring and elasticity which is normally given by Manitobas.

"Since English and European millers are per excellence, blenders of wheat, they require to know the exact properties of the wheat they use. I therefore recommend that Garnet wheat should be placed upon the market as a separate variety, and although in the first instance, its price might be slightly lower than the corresponding Manitoba, I am inclined to think the market would rapidly appreciate its merits and there may be times when the Garnet may command the higher price."

"Another investigator is even more emphatic when he says:

"There is no doubt in my mind that we can make very good use of this wheat in London, providing we are able to buy it separately as Garnet wheat. In fact, it has a distinct value of its own, but if mixed with Manitobas, it will not only lose its own distinctive value but will tend to greatly lower the distinctive value of the Manitoba wheats. If your farmers can send forward Garnet wheat of as good a quality as this

particular shipment, I do not think they need fear having to sell it at a great discount as compared with Manitobas."

"The question as to how Garnet compares with ordinary Manitobas for blending with non-Canadian wheat, is one which obviously could not be answered very definitely in an investigation which had to restrict itself to the crop of a single year. There was some evidence, however, to show that there might be times when by reason of some peculiarity in the season prevailing in certain wheat-producing countries, wheat of the character of Garnet might actually be of greater value for blending purposes than would our present Manitobas. Similarly, there might be times when the latter wheat might be worth a little more for blending purposes. It was also shown that a mixture of Garnet and of Manitobas in fairly definite proportions might, under certain circumstances, produce better results

than if either of these two wheats were used alone in the blend.

"While the questions asked specifically of the bakers have been fairly well answered already, yet there are a number of points raised which are worthy of special consideration. Thus, the questions of absorption and bread yield, are points of importance. The findings of practically all of those participating in the present investigation, are closely in agreement with the following conclusions: Generally speaking, the flour of Marquis absorbs a little more water than does that of Garnet, and consequently, is inclined to produce a little higher bread yield. Since ordinary Manitobas at the present time consist largely of Marquis, it may be safe to assume that the tendency is for the former to absorb a little more water than is absorbed by Garnet."

Demand For Muskrat Pelts

The growing popularity for muskrat coats in Scotland is responsible for an increasing demand for muskrat pelts. One of the largest wholesale manufacturing furriers in Glasgow has announced that it will require about 20,000 muskrat skins this year, and is seeking quotations for best quality eastern Canada rats of large size and good color.

ALPINE MEMBERS CAMP ON MOST BEAUTIFUL LAKE IN ROCKIES

Where year by year increasing thousands are turning to it for rest and recreation, finding among its glorious ranges and by its exquisite lakes continual stores of joy and health, Jasper National Park will be visited this summer by Alpists to the 25th Annual Camp of Alpine Club of Canada, in the Maligne region, July 28th to August 16th. Mountain climbers from all over Canada and the United States, many of whom will have their wives—or husbands—will be in attendance, as will also a number of distinguished visitors attending the British Medical Association Convention in Winnipeg.

To reach the main camp, the party will be conveyed from Jasper town or Jasper Park Lodge by motor car to Medicine Lake, about 20 miles; to the upper end of the lake via motor boat, and from there to Maligne Lake a distance of about 9 miles, on foot, although a limited number of riding ponies will be available between the two lakes.

The main camp will be pitched close to the mouth of Coronet Creek at the south end of Maligne Lake, directly behind the camp, lower the buttressed walls of Mount Warren (10,800 feet). The first ascent of this peak was made by Max M. Sturma and William Heinemann in 1928, who, from their camp at the mouth of Warren Creek, at the southeast corner of the lake, also made the ascent of the Thumb (9,250 feet); also of Mt. Florence (9,750 feet). These ascents can be made from the main camp, but with the assistance of a motor boat the

route can be considerably shortened. The double ascent of Mount Mary Vaux (10,250 feet), and its outlier, Mt. Lysyfran (9,000 feet), will be a popular expedition for beginners. To the northwest, another great group of mountains will claim the attention of the mountaineers, Mt. Leah and Mt. Sampson, impressive rock masses. Directly opposite them rise Mt. Charlton and Unwin, topping all other peaks in the region and heavily draped in snow and ice. Directly south of these two masses rises Amery's Mt. Julian, climbed by him and Edouard Feus last August for the first time.

In order to climb mountains too distant to be reached from the Main Camp, an auxiliary camp will be placed at the head of Coronet Creek some six miles away, and from here ascents will be made to Mt. Brazeau (11,250 feet), Mt. Veld, Mt. Henry Macleod (10,600 feet), Coronet Peak (10,000 feet), and other unnamed peaks. There are many minor expeditions for those whose tastes lean to less strenuous activities. Trips to places bearing such fascinating names as Sunshine Falls, Piste Valley and the Fall of the Veil of Tears are being considered.

The new Memorial Hut at Penstock Creek, in Tonquin Valley, not far from Surprise Point will be ready for members shortly before Camp. It is about twenty-five miles from Jasper, thirteen of which can be travelled by motor on the Gas-Cavell Highway and the balance by trail. It is an excellent climbing centre and many members will visit this wonderful region.

Growth of Western Provinces Within Recent Years Has Been One of Great Modern Romances

On July 15th the Province of Manitoba celebrated its diamond jubilee as a province of Canada. Manitoba was created a province in 1870, and began its career as such on July 15th of that year. The name Manitoba is a contraction of the Cree word Manitowaban, and is said to mean "The God That Speaks."

The first white men to set foot in what is now the province of Manitoba were Pierre Gaultier de Varennes La Verendrye and his sons, about 1732. In the early part of the nineteenth century Lord Selkirk began to establish a settlement of Scottish families on the Red River, and this became the foundation stock of the oldest white settlement in Western Canada.

In 1870 the province of Manitoba consisted of only a comparatively small section of land on both sides of the Red River. It has since then been twice enlarged and now has an area of 251,832 square miles. The population of the province 60 years ago was about 25,000; now it is over 638,000. The total population of Western Canada in 1870 was about 109,000. In 1930 it is about 2,650,000. Winnipeg, sixty years ago, was a settlement of a mere handful of people; in fact the official census of 1871 gave it a population of 241. Now it is one of the most modern cities of the

world with a population of over 200,000.

The growth of Manitoba and of the other provinces of Western Canada in comparatively recent years has been one of the great romances of modern times. Sixty years ago Western Canada was practically virgin territory. Railways did not link Manitoba with the Eastern provinces until the early eighties. Hardy pioneers had begun to flock into the province in advance of the railways, driving their yokes of oxen with their families, and all their worldly possessions loaded on a "prairie schooner" or Red River cart. Many of these pioneers received free land from the Canadian Government. Scarcely any of the rich fertile soil had then been brought under cultivation. The farm machinery of the time was crude; there were no competent advisers; Government experimental farms did not come until several years later. Yet those hardy pioneers stuck it out, and numbers of them are enjoying their declining days in the communities they wrested from the wilderness, prosperous, contented, with their children's families gathered about them. They have seen civilization step into the west and the wilderness swept out. Today are thriving cities and towns where bleaching buffalo bones marked the outskirts of 60 years ago. Today are mighty freight trains, each with its thousand-ton cargo of wheat or merchandise, roaring down the roads where the old carts creaked. Today are schools within walking distance of every farm house, churches within driving distance of every home. Today are telephones, radios and every modern convenience linking communities over vast distances by the common bond of the spoken word.

Canada now ranks as the largest wheat-exporting country in the world, and the second largest producer of wheat, over ninety per cent of which is grown in the three Prairie Provinces. The wilderness of a few decades ago is now one of the world's greatest granaries and also a substantial contributor of other grains, livestock, dairy products, manufactured goods, etc.

If La Verendrye, Selkirk, and others of the early pioneers had been present at the Diamond Jubilee celebration of the creation of the province of Manitoba, they would undoubtedly have been overwhelmed with the metamorphosis that has taken place not only in the area of their original settlements, but throughout the whole Dominion. Yet notwithstanding the marvelous development that has taken place in Western Canada in the past 60 years only about one-fifth of the land suitable for farming is under crop and millions of acres still await the plough. The opportunities of Western Canada are today even better than when the hardy explorer, La Verendrye, arrived in Manitoba from his native town of Three Rivers, Quebec, about two hundred years ago, and Lord Selkirk established the settlement of his courageous kinsmen on the Red River about 100 years ago.

Fold Old Debt

A 46-year-old eight dollar debt, which was incurred at the funeral of Jane Gibson, in Vincennes, Ind., negro woman, was paid a few days ago when a son called at a local undertaking establishment and settled the account. The proprietors had forgotten it.

"Doctor, can you tell me a cheap cure for fatness?"
"Certainly, madam, the cheapest is the fasting-cure."—Hummel, Hamburg.

(By Annebelle Worthington)

A little Dutch apron frock for small folk of 2, 4 and 6 years.

It's delightfully comfy and smart. It can be worn as apron to keep little daughter's frock apron and span.

It is unsurpassed for the warm days of summer, worn as a frock. The square neck is cut quite low. It's sleeveless too! It buttons down the back with the bodice tied with quaint snail.

The miniature diagram shows how utterly simple it is to make and launder. Style No. 3358 is suitable for pique, broadcloth, dimity, organdie, linen, printed lawn. Peter Pan prints, dotted Swiss and batiste.

The neckline, armholes and pockets are trimmed with rick-rack braid. As a smart variation, they may be piped in contrasting colour.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Kene Howard, British ambassador to the United States, who was granted a barony on the recent King's birthday, has taken the title of Baron Howard of Penrith.

Professor Ludwig Stein, internationally known philosopher and author, died at a nursing home at Salzburg, Austria, after an operation. He was 70 years old.

Canadian shipping companies had the bulk of the wheat business on the Great Lakes last month, according to the report of the Lake Shippers' Clearance Association.

The British Government is highly pleased by the shipbuilding holiday agreed to by France and Italy. Premier J. Ramsay MacDonald told a questioner in the House of Commons.

The financial situation among Chicago's 13,000 public school teachers is once more acute. It is vacation time and pay checks are three weeks overdue. To date the back pay amounts to \$6,500,000.

Hundreds of thousands, celebrating 300 years of Massachusetts history, heard Sir Ronald Lindsay, British ambassador, bringing the greetings of the newest member state to the sovereign state of Massachusetts.

G. W. Jones, Canadian expert on taxation, has arrived at Canberra, Australia, at the invitation of the government of the commonwealth, to advise the administration regarding the operation of the sales tax introduced in the budget brought down recently.

British unemployment figures still are soaring upward a government report indicated. The Ministry of Labor announced that on July 7, the total out of work was 1,935,500, a gain of 42,925 over the previous week and 789,254 more than the same period last year.

Bright Spots At Port Churchill

Neither Port Nor Boasts Of Four Lady Residents

Up on the rocky shore of Hudson Bay, Churchill was once "No Woman's Land." For five years—including the winters—Mrs. A. Gibson, wife of the Church of England minister, has made the new port her home. But this summer Churchill boasts its largest contingent of femininity—four women.

Three new lady residents came north on the Muskogee Limited late in May. They were: Mrs. S. Martin, wife of the United Church minister; her daughter, Margaret; and Mrs. Claude Johnson, wife of the divisional engineer of the Canadian National Railways. All three will reside at Churchill until autumn.

Alberta Beet Sugar Production
It is expected that about 24,000 tons of sugar will be produced from the sugar beet crop in Southern Alberta this year. Growing of sugar beets in the Raymond district, Alberta, is an important industry.

The United States produces more than 21,000,000 gold fish for commercial purposes in a year.

"Why haven't you written out your lines? I must sit still!"
"But I couldn't write them when I had to sit still, sir."—Moustique, Charlot.

W. N. U. 1847

Will Increase Safety In Steel Construction

Electrical Finger "Feels" Strain In Steel When Under Great Pressure

An electrical finger that "feels" the invisible twists and strains in steel under great pressure was described to the American Society of Testing Materials.

The purpose is to increase safety in construction by making under conditions of actual use tests heretofore confined to research laboratories. The device was described by J. P. Shamberger, of Pittsburgh, who said it was designed by J. G. Ritter, of the Westinghouse Electric & Manufacturing Company.

No longer than a human finger, and not much thicker, it bolts to the side of a rail and records the bending as a 100-ton locomotive thunders over. If placed on a curve it will show the side twist of the rail under the locomotive's thrust. It can be laid up on an automobile wheel to detect how nearly bumps come to causing overstrain.

The finger works somewhat like a slide rule, being of two parts, which telescope. This telescoping amounts only to the diameter of a tremor or a vibration, that is, something like one ten-thousandth of an inch. Even so slight a motion slides a piece of iron or tin from between two sensitized electrical instruments on the finger.

These instruments correspond to the sense of touch. They detect the motion of the bit of iron, and with it the distortion which causes the movement. They register this movement by slight electrical changes.

The "nerves" of the finger then come into play. They are plain wires, which carry the slight electrical disturbances to instruments that amplify them into movements an inch long that can be calibrated in terms of wear and tear.

Made Fortune From Linoleum

Ingenuity Of Englishman Started Him On Road To Wealth

Lord Ashton, whose amazing fortune was between thirty and forty millions, owed his wealth originally to his clever father's ingenuity, says the News of the World. The father was a working house painter who started a little shop in Lancaster, where he combined with his trade a picture-framing business. When silk-cloth was introduced from America he improved on it by giving it a backing of powdered pork instead of cloth. So linoleum was invented and his fortune made. Lord Ashton himself worked in his father's factory from an early age and proved a wonderful man of business.

Grain Stocks Decrease

Grain In Store At End Of June Shows Decrease Of Over Three Million Bushels

Returns received as to stocks of grain in store for the week ended June 27, 1930, show a decrease of 3,277,500 bushels, according to a report issued by the Dominion Bureau of Statistics. Stocks for the week were as follows: Wheat, 13,735,712. Oats, 9,927,331. Barley, 22,639,184. Flax, 512,382, and Rye, 8,241,089, a total of 172,156,698 bushels. Decreases are noted in wheat, of 2,281,693. Oats, 856,580. Barley, 8,771. Flax, 38,061, and Rye, 387,411 bushels. For the same week last year the amount in store was 148,620,622 bushels.

White Pine Best For Patterns
White pine is used for 60 per cent of the patterns made in North America. The reasons for this, are, that white pine, more than any other wood, is easily worked, is of soft texture, is comparatively strong, is very durable and, most important of all, has very little shrinkage, which gives it the power to hold its shape indefinitely after being worked.

A Good Definition
Col. "Pat" Hurley, of Oklahoma is a lawyer, but his business interest is oil and real estate. His definition of oil operators is: "An oil operator is a man who doesn't know whether he is four feet from \$1,000,000 or 1,000,000 feet from \$4."

The trap door spider covers its tunnel with a trap door, neatly beveled to fit the opening, and hinged at one side. The door is made of alternate layers of silk and soil.

British airplanes now in regular use carry 22 passengers.

SUNDAY SCHOOL LESSON

JULY 27

DEBORAH "A LEADER IN A NATIONAL EMERGENCY"

Golden Text: "Say to them that are of a fearful heart, 'Be strong, fear not.'"—Isaiah 35:4.
Lesson: Judges 4:1-15.
Devotional Reading: Psalm 68:4-11.

Explanations and Comments

The Oppression At The Hands Of Jabin, verses 1-3.—When Ehud was dead, the Israelites were oppressed by the Philistines, and for fear of them travellers left the highways for the byways. With only his ox-goad as a weapon, probably at the head of many other peasants similarly armed, Shamgar killed six hundred Philistines. Then came a giant Jabin, king of the Northern Confederacy of the Canaanites, through Sisera, his commander-in-chief, had for twenty years held a military despotism over the northern districts of Canaan. The children of Israel cried unto Jehovah for help, for Jabin had nine hundred chariots, and they lived on the hills and had no one.

Deborah Summons Barak To The Defense, ver. 4-7.—The name Deborah means "She," and Matthew Henry, that ancient interpreter of the Bible, sees in Deborah, the judge, the fulfillment of her name by her industry, sagacity, and great usefulness to the public, her sweetness to her friends and sharpness to her enemies. She was a prophetess and the wife of Lapidoth. To quote Matthew Henry again: "The termination not being commonly found in the name of a man, some make this name the name of a place: she was 'a woman of Lapidoth.' Others take it appellatively, Lapidoth, signifying 'lamps.' The rabbi says she had employed herself in making wicks for lamps of the tabernacle; and, having stooped to that mean office for God, she was afterwards thus preferred. Or she was a woman of illumination, one that was extraordinarily knowing and wise." Between Ramah and Bethel, in the hill-country of Ephraim, she was wont to sit under a palm-tree as judge, perhaps not so often to settle disputes between men as to declare what was the judgment of God in national affairs, and the tree was therefore called the palm-tree of Deborah.

Barak Requires Deborah's Aid, verses 8, 9.—Barak was not brave enough to start forth alone, and refused to go unless Deborah would go with him. Deborah consented, but added that he would not have the honor of the result, for Jehovah would sell Sisera into the hands of a woman. Sisera was killed by Jael, a woman (verses 17-22), but Deborah's words seem rather to apply to herself, that to her, rather than to Barak, would be given the credit for the victory.

An "intelligent" perfume filling apparatus has been devised, which refuses to drop any liquid into a bottle that happens to be imperfect.

A property in Durham, England, is held at the "rent" of three grains of pepper yearly.

Consume More Meat

Substantial Increase In the Quality Of Meat Consumed By the Average Canadian

Reports of the Live Stock Branch of the Dominion Department of Agriculture, show a substantial increase in the quality of meat consumed by the average Canadian, particularly beef, lamb and mutton. In 1928, the home market absorbed 648,600,000 lbs., while in 1929 it absorbed 676,800,000 lbs., an increase of 28,200,000 lbs. of beef, or roughly 2 lbs. more per capita. The Canadian market consumed 70,500,000 lbs. of lamb and mutton in 1928, compared with 62,200,000 in 1929, an increase of 8,300,000 lbs., or nearly 1 lb. per capita.

Outdoes King Of Birds

Flock Of Eagle Raiders Were Annihilated By Airplane

After longing for unnumbered centuries to fly with the wings of an eagle, man has at last even outdone the king of birds. A flock of eagles raiding the sheep ranches near El Paso, Texas, were annihilated by an airplane with a passenger carrying a shot gun. In eight hours the plane had accounted for nine birds which a rancher had been trying to shoot from the ground for a year.

Candy making is one of the least hazardous of the specialized industries, both from accident frequency and severity.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

51 Wellington St. W. TORONTO, ONT.

WINNIPEG PLANS WORK TO ASSIST UNEMPLOYED

Winnipeg, Man.—The cities of Winnipeg and St. Boniface propose to group themselves in an effort to alleviate the unemployment problem under Premier Mackenzie King's dollar-for-dollar scheme. Decision to start at once on the rebuilding of two bridges as relief work for the jobless was reached at a conference of civic officials of the two cities.

Tentatively, it is suggested the Dominion Government, in line with Premier King's promise that the treasury will expend an equal amount with the provinces seeking to relieve unemployment, be asked to pay 50 per cent. of the total expended on the work. The Manitoba Government would be asked to meet 25 per cent. of the cost with the municipalities putting up the remaining 25 per cent.

While the general view of delegates to the municipal conference is that work on the two bridges, entailing an outlay of something more than \$1,000,000, should be started at once, a gigantic collective scheme of public works, amounting to a cost of \$6,000,000 or \$7,000,000 was considered. An extensive drainage scheme and other bridge construction would form a part of the large scheme.

A delegation was appointed by the conference to discuss with provincial premier John Bracken immediate construction of the two bridges and apportionment of costs.

Women Peersesses

Bill To Admit Peersesses To Membership In House Of Lords Is Defeated

London, England.—A bill to admit women peersesses in their own right to membership in the House of Lords, was defeated by the narrow margin of four votes, 53 to 49.

Lord Astor, who has been the women's champion for many years in their fight for recognition in the Upper House, introduced the bill.

Conservative peers opposing the bill held that the question of the admittance of women should be left until the reform of the whole House was considered, a movement which has been considered for some time.

Shipbuilding Declines

Great Britain's Shipbuilding Industry Slows Up

London, Eng.—Decline of Great Britain's shipbuilding industry in ratio to that of the rest of the world is revealed strikingly in returns for the second quarter of this year made public by Lloyd Underwriters.

Out of 3,057,000 tons under construction by the world during the three months, 1,392,000 tons, or 45 per cent. of the whole was being built in Great Britain and Ireland. This compares with a percentage of 57.2 built by Great Britain and Ireland in the 12 months immediately preceding the war.

Youthful Traveler

Halifax, N.S.—With a tag on his coat to tell his name and destination, Basil Wacko, eight years old, travelling alone from Warsaw, Poland to Star, Alberta, and who arrived in Halifax on the Red Star liner "Westernland," is now on his way west by Canadian National Railways. Basil has come to Canada to join his father.

Receives Appointment

Toronto, Ont.—Prof. J. C. B. Grant, M.B., Ch.B., F.R.C.S., Edin., newly appointed professor of anatomy, University of Toronto, relinquishes a similar position at the University of Manitoba to succeed Prof. J. B. McMurrich, M.A., Ph.D., LL.D. He was temporary captain of the R.A.M.C. and received the Military Cross for war service.

Was Celebrated Violinist

Dresden, Germany. Leopold Von Auer, of New York, celebrated violinist and violin instructor, died of pneumonia at the Sanatorium Lechwitz near here. He was 85 years old.

W. N. U. 1847

Six Women Candidates In Election Campaign

One Running in Manitoba and Two In Saskatchewan

Ottawa, Ont.—Miss Agnes MacPhail may have to look to her laurels when the hurry-burly's done and the battle lost or won. For there are twice as many women candidates in the present election campaign as there were in last. Ontario has two, including Miss MacPhail; Manitoba, one; Saskatchewan, two; Quebec, one, a total of six against three in the election of 1926 and four in that of 1925. And women too are likely to have more to say in the result. They are attending meetings. The new system of enumeration has put more of them on the voting lists.

Miss MacPhail was the first woman elected to the Federal House, and for three parliaments she has remained in her isolation.

At Ottawa, Miss MacPhail has been persistent in her attacks on what she considers evidence of militarism. At the League of Nations Assembly last September, she was substitute delegate with Sir George Foster of the disarmament committee—the first woman to represent Canada at the League.

In the 1926 campaign, Miss MacPhail had the comfortable majority of 1,728, her fight being with a Conservative. Both a Liberal and a Conservative were in the field early in the present campaign but the Liberals did not submit nomination papers.

Miss MacPhail has again a straight fight on her hands.

Canada's Position Sound

Country Merely Passing Through Temporary Period Of Depression

Victoria, B.C.—Sir Henry Thornton, president of the Canadian National Railways, arrived in Victoria at the end of his trans-Canada survey and announced his conclusion on business conditions as follows:

"We can't expect the sun to shine all the time; there are bound to be showers. But so many people are mistaking a shower for a cyclone.

"We have got to look below the surface and see if there is anything wrong with our fundamentals. If you diagnose the position of the country, organically so to speak, you will find that we have the same courageous and intelligent population we had ten years ago.

"That tells us that we have no disease, or, as the doctors would diagnose it, we are merely passing through a headache or a cold.

We could not have had the stock market losses of the crash last year in New York, which carried down all the markets in the world, without these losses finding expression in reduced purchasing power of the people in all lands.

"Things will probably mark time for a certain period until the public recovers its purchasing power. If we have a good crop on the Canadian prairies this year we will be well on our way upwards next year."

Would Save Millions

Opposition In Australian Government Ask Reduction Of Members' Salaries

Canberra, Aus.—A fresh sensation was caused in Australia with announcement that the opposition is going to move for reduction in salaries of the Prime Minister and of the members of the House of Representatives. Hon. J. G. Latham, leader of the national opposition, gave notice of intention to move an amendment during debate on the budget. He estimated a saving of 4,000,000 pounds (nearly \$20,000,000) could be effected.

Decision Left To Dominions

London, England.—The question of whether the forthcoming Imperial Conference will discuss the problem of women's nationality was put to Rt. Hon. J. H. Thomas in parliament, and he replied the agenda was a matter for agreement between the Dominions. He was not able to give any specifications.

Ask Penny Postage

London, England.—Reintroduction of imperial penny postage, in the interests of imperial unity, was urged in a resolution passed by the British Empire League. The resolution was proposed by Sir Henry Page Croft.

AVIATOR HAS NARROW ESCAPE

Al. Cheesman, Antarctic flier, who escaped without a scratch when his aeroplane caught fire while flying from Sioux Lookout to The Pas. The pilot brought his machine safely to rest, also avoiding a crash.

Ban U.S. Unemployed

Action Is Taken To Prevent Surreptitious Entry

Vancouver, B.C.—Hon. Tan Mackenzie, recently appointed Minister of Immigration and Colonization, has asked to have his department prevent the surreptitious entry of unemployed United States workers into Canada.

Instructions have been issued in Ottawa, by Deputy Minister W. J. Egan, to border inspectors to keep a sharp lookout for indications of attempts by United States citizens to make illegal entry into this country. Co-operation of the customs department and mounted police has also been sought, he states in a telegram to Mr. Mackenzie.

Mr. Mackenzie's statement "follows: "Hiring unit inspectors to suspect that unemployed Americans may be surreptitiously trying to make their way into Canada, I wired my deputy minister to exercise the most vigilant vigilance to see that this does not occur."

"In view of the steps that will be taken in the near future to cope with unemployment in our Canadian cities, particularly in the west, we wish to ensure that the assistance rendered shall be to our own people only."

Unknown At Ottawa

"Pierre La Passe" Did Not Serve With Canadians During War

Ottawa, Ont.—No man of the name of "Pierre La Passe" ever served in the Princess Patricia's Canadian Light Infantry, officials of the National Defence Department declared here when asked concerning the man of that name who had given battle to a pair of gunmen in Chicago. There was no Pierre La Passe in any unit of the Canadian Expeditionary Force during the war, the official added.

Tax Incomes For Relief

Australia's Method To Raise Funds For Aid Of Unemployed

Brisbane, Aus.—A special tax on all incomes to provide funds to extend the present unemployment relief works in Queensland, and an arbitration act amendment with a view to abolishing the preference of trades unionists, affirming the right of every man to accept work where and when it is offered, are among the government's proposals at the opening of parliament.

Belgium Accepts Invitation

Will Participate In World's Grain Exhibition and Conference

Regina, Sask.—According to word received, Belgium has officially accepted the invitation to take part in the World's Grain Exhibition and Conference to be held here from July 25 to August 6, 1932.

Some little time ago official invitations were sent to the Dominion Government to all countries inviting them to participate. A few countries in which cereal production is not carried on, or carried on to a very small extent, have gratefully expressed their inability to take part; others including the United States, Bolivia, Columbia and Chile have expressed their interest and asked for further information, for consideration, and official acceptances have been received from Peru, Yugoslavia, Guatemala, New Zealand, Poland, Czechoslovakia, The Netherlands and Belgium, eight in all.

Mr. Mooney, the managing director, is now in Europe for the purpose of interviewing government officials and supplying to them detailed information relative to this great Canadian enterprise. His visit is expected to be the means of stimulating a greater interest on the part of European countries. The fact that many countries, two years previous to the holding of the exhibition, accepted the invitation to participate and send delegates is taken as a good omen for the 1932 show.

May Send Delegates

To Great Britain

B.C. Lumbermen Plan To Promote Sale Of Timber Products

Victoria, B.C.—British Columbia will send a lumber delegation to Britain shortly, as it sent a similar delegation to Australia early this year, to promote the sale of B.C. lumber in British markets, it plans discussed here between the government and E. M. H. Lloyd, representative of the Empire Marketing Board, materialize.

Hon. N. S. Lougheed, Minister of Public Works and a leading lumber man, asked Mr. Lloyd if a B.C. lumber delegation could secure work while results in Britain. Mr. Lloyd replied that it should be able to do a great deal of good in promoting the sale of B.C. timber products generally.

Greeting For King George

Japanese Emperor Sends Message By Prince Takamatsu

Tokio, Japan.—A greeting from the Emperor of Japan to King George V. is on its way to England, enclosed in a go' 'n' casket, in the keeping of the Emperor's brother, Prince Takamatsu, who with his bride will be the guest of the King and Queen. The message is in the form of a poem by one of the foremost Japanese poets. It is inscribed on parchment and illuminated by Oriental artists. It was formally blessed by the priests at a special religious ceremony in Tokio before it was placed in the casket, and the casket was then sealed to exclude malignant spirits.

Manitoba Crop Prospects

Winnipeg, Man.—Manitoba's present crop outlook is described as "very encouraging" in a report issued recently by the provincial department of agriculture. Wheat fields are headed, although heads are not long, and are of a good appearance, how well they will all depend on the weather, the report adds.

TWO WARSHIPS SENT TO EGYPT TO QUELL RIOTING

London, England.—Great Britain has approximately 9,000 troops at present in Egypt, Tom Shaw, secretary, told a questioner in the House of Commons. The troops consist of three cavalry regiments, six batteries of artillery, six infantry battalions and auxiliary troops, Shaw said. The troops are stationed at Cairo, Ismailia, Alexandria and Port Said.

There was some question among political observers whether the British Government would not intervene in Egypt in view of its obligation to protect foreigners there.

Reports that eight or more foreigners were killed in rioting at Alexandria were not confirmed, however, and it was certain the present British Government would not act precipitately.

The British Government has ordered the battleships "Queen Elizabeth" and "Ramilles" to proceed to Alexandria for the protection of foreign lives and property endangered by disorders at that place.

Prime Minister MacDonald, in announcing the dispatch of the vessels, also informed the House of Commons that Sidky Pasha, the present Egyptian premier, and Nuh Pasha, former premier and Nationalist leader, had been warned they would be held responsible for the protection of foreign lives and interests.

Noted Labor Leader Dead

James M. Lynch Inaugurated Forty-Eight Hour Working Week

Syracuse, N.Y.—James M. Lynch, former president of the International Typographical Union and leader of that organization's successful battle for the 48-hour working week, died in hospital here of blood infection.

He was born Jan. 11, 1867, at Manlius, N.Y., and came to Syracuse as printer's "devil" on the Syracuse Herald.

He stayed with the newspaper until 1898 when he was elected first vice-president of the I.T.U. after holding the presidency of the local union for seven terms. In 1901 he was elevated to the I.T.U. presidency, continuing to hold that office until 1914, when he resigned to become Commissioner of Labor.

Canada's Apple Crop

Report Shows Decrease In East But Increase In British Columbia

Ottawa, Ont.—The commercial apple crop of Canada estimated for 1929, as compared with 1928, indicates reductions of 40 per cent. in Nova Scotia, 23 per cent. in Quebec, 33 per cent. in Ontario, less than the five-year average in New Brunswick, while in British Columbia the crop is expected to yield an increase of 22 per cent. The total crop is estimated at 3,113,380 barrels, as against 3,939,915 barrels in 1928, slightly less than three per cent. under the average commercial production for the five-year period 1925-29.

New Form Of Farm Relief

S.S. Farmers Advised To Use Wheat As Dairy Feed

East Lansing, Mich.—Agricultural experts at Michigan State College offer a new form of farm relief to those who are worrying about the price of wheat.

Feed it to livestock, says a statement issued by four department heads. At present prices, wheat is worth \$5 more a ton as a dairy feed than as a commercial cereal, the experts assert, adding that farmers can save \$10 a ton by feeding wheat instead of corn.

Survived Week In Bush

Renfrew, Ont.—After wandering through the heavily bushed country in Admaston township for almost a week, subsisting on berries and sleeping under the protecting foliage of trees, Lloyd Warren, aged seven, for whom an intensive search had been maintained, was found. Doctors said he would be quite recovered in a day or two.

Their Serene Highnesses, Prince Phraobert, Prince Phraoan and Prince Phraoan, nephews of his Supreme Majesty the King of Siam, who reached Vancouver, June 21, aboard the Canadian Pacific liner "Manitoba," the two young princes will enter school at Washington, D.C., while their elder cousin, a captain in the Siamese army, will take up temporary residence at the Siamese legation in the United States capital.

Unterschuetz—Lutz.

A very pretty wedding takes place today (Thurs. July 24) at St. Matthew church (Missouri Synod) when Miss Caroline Lutz (daughter of Mr. and Mrs. John Lutz) will be united in marriage to [Rev. Ph. Unterschuetz]. The ceremony will be performed by Rev. Prof. Guebert of Edmonton.

The bride will be attended by her sister Elizabeth as bridesmaid; while Mr. John Unterschuetz, brother to the groom, will be best man.

After the festivities, the happy couple will leave on a short honeymoon to Banff and Lake Louise.

On their return, they will take up their residence at Rochester, where Rev. Unterschuetz has secured an appointment covering the points of Athabasca, Tawatinaw, Colinton and Sprucefield.

Stony Plain and District

Val Mohr, Mundare, is a visitor in Stony this week.

Mr. C. Hyett has moved in from Garden Valley, to the house on 3d St. recently vacated by Dr. Walton.

Mr. and Mrs. McCulla arrived home on Tuesday from their trip to California.

Mr. and Mrs. Jac Becker left Tuesday on a motor trip to their daughter, Mrs. Krebs, and Mr. Krebs, at Scotford.

Mr. and Mrs. Michael are visiting friends at Halkirk.

Mr. G. E. Morrison left yesterday for Wabamun.

Mr. P. Comisarow is spending a vacation with friends at Millet.

The local Moose Lodge held its regular fortnightly meeting in their hall on Monday night.

Stony Plain local U. F. A. will hold a special meeting Sat. night (July 26).

On Sunday next a Mission festival will be held at St. Matthew's church (Missouri Synod).

At Tuesday's Court Metro Carp was fined \$20.00 and costs on a charge laid under the Liquor Act.

The ball game at Edmonton Beach on Sunday afternoon resulted in a 1-0 score between Electrical Engineers and Ashdowns. The game between Rosenthal Singles 6 v. Comets 4; Rosenthal Married 13 v. Britebank 12.

The annual camp of members of Walter League starts tomorrow Friday July 25th, at the Edmonton Beach. Visitors will be present from other branches in the province. Owing to the special services at the St. Matthew's church on Sunday next, the proposed Rally has been postponed.

At Holborn on Thursday, July 17, to the wife of Chester A. Kimmery, a son.

Off with the old Black Rims; on with the new Whiter Yellow Gold. Do you know that the black frames are out of date, and that white is the proper thing in spectacle wear? Be up to date and see M. Mecklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, on Thursday, August 7th, 10170 101st St., Edmonton. Phones 1072 & 2946.

Calendar.

JULY—
26—Stony's U. F. Local meets.
28—Election Day.

AUGUST—
1—Inga Councillors meet
1—Walter League Rally at Edmonton Beach.
3—German celebration in Edmonton
6—The W. T. Garden Club conv. petition.
6—Stony's Civic Holiday.
7—Town Council meets.
7—Mecklenburg at the Royal Hotel.

Tennis Tournament

On Friday July 4 the local tennis club entertained Spruce Grove club at the local courts, with the following results: Stony 115 games, Grove 56.
During the play tea was served at the park nearby by the ladies of the club which was voted delightful by all.

The Grove club held the return matches on local courts on July 10th, results as follows—Stony 81 games, Grove 74.

The Grove ladies in turn served tea at the park.
The tennis courts have been in very good shape this year but owing to unfavorable weather the local friends have not had the opportunity of much play.

Spruce Grove News

Miss Marie Taylor of Edmonton has been visiting here with Mrs. J. Elder.

Miss Sarah McKinley, Edmonton, was a guest of Mrs. McLeod, at the Beach cottage.

The local Boy Scouts returned home Sunday evening from Lac la Poudre, where they had been camping.

A very successful Mission-fest was held Sunday afternoon at St. Matthew church (Manitoba Synod). The pastor Rev. G. Poetzsch was assisted by Rev. Harlich of Winnipeg and Rev. Ewald of St. John's church, Golden Spike. A Missionfest will be held at the latter place on Sunday next, July 27.

Mr. Brox presided at the big Liberal meeting Thursday night at the school. Hon. C. Stewart gave an address, and hurried on, to keep an appointment at Golden Spike. Hon. C. Stewart will give an address at Winterburn Hall Friday, July 25.

Mr. M. Duchscher, who has been doing some effective work around here for the Conservative candidate, is leaving next week for Peace River district.

While driving his car in to the Missionfest grounds on Sunday, young Walter Frank had the misfortune to over-

Lineau Boy Disappears.

The disappearance on Thursday last of Walter Lineau, 16 year old son of Julius Lineau, a Grove farmer, caused some little excitement. Search parties were out Friday and Saturday; but no trace of him was discovered. He left home on Wednesday afternoon to get a haircut, returned home, and left again, since which time nothing had been heard of him.

It had been reported that he had been seen at Edmonton Ex. on Monday he was traced to a farm three miles from the City. He had been having a good time with the farmer; but was induced to return home, where he now is.

And the Cyke Keeled Over.

The foolishness of a motor vehicle trying to pass another while traveling at full speed was shown on Sunday afternoon, when the Edmonton cars were scurrying home from the beaches. A motorcycle with two riders attempted to pass an auto opposite the Grove blacksmith shop, and keeled over as soon as it struck the deep loose gravel there. The riders were thrown to the roadway, but soon scrambled up; made a few readjustments to their machine and rode away.

turn his car. The five occupants were thrown out, but escaped with slight injuries.

Another championship game at horseshoe pitching will be played tomorrow evening, on local grounds.

Mr. and Mrs. W. J. Connolly are on a motor trip to their home town in Ontario. Mr. A. Thompson is helping Mr. Walt. Brox to manage the store in their absence.

A Conservative meeting will be held at the local school house on Saturday evening July 26th.

NOTICE !

A Reward of \$25 will be paid for information leading to the conviction of the person or persons responsible for breaking street lamps on the Company's street lighting system. A similar reward will be paid for information leading to the conviction of any person or persons interfering with the transmission lines of the Company in such a manner as to cause a hazard to the service on the said lines.

CALGARY POWER
COMPANY LIMITED.

Here and There

Pressure of business and growth of the Canadian Pacific Telegraph has necessitated the appointment of an assistant general manager of the system. W. L. Neill, assistant manager, Western lines, Vancouver, having been promoted to the position. Other appointments resulting from this action, W. M. Thompson, superintendent, Ontario Division, Toronto, to be assistant manager, western lines, Winnipeg; H. S. Ingram, superintendent, eastern division, Montreal, to be superintendent, Ontario division, Toronto; and W. S. Emery, chief operator, Montreal, to be superintendent, eastern division, Montreal.

Fox Film Corporation during early July took sound recordings of the wind in the pines, the music of the waterfalls and the rippling of streams around Banff Springs Hotel and into this boxed atmosphere there will be placed actors and actresses who will be shown climbing mountains, walking by the side of lakes or canoeing on water-courses they have never seen.

Beating the world's record in passenger traffic operations, western Canada came into the limelight at the end of June with the 1,352 mile continuous run from Fort William to Calgary performed by Canadian Pacific engine No. 2808, of the H. class. This locomotive is one of several now in service and under construction for the railway and are the latest type of passenger engine.

Carrying nearly a hundred tourists organized by the University of Montreal, a special Canadian Pacific train left Montreal July 5 for western Canada and the Pacific Coast. This tour is the sixth annual transcontinental trip undertaken and will last for three weeks. The richest industrial, agricultural and commercial districts of Canada, as well as the most beautiful scenery, including the Rocky Mountains, will be visited.

With a five-pound trout taken himself and a four-pounder landed by his son, in the lake of Arthur C. Roche, of Melrose, Mass. has just concluded a ten-day fishing trip down the Cain's River, near Brunswick. He said he had never heard of waters where there were so many trout as in Cain's River.

A total of over \$57,000,000 is to be spent this year on the construction and maintenance of roads throughout Canada. Ontario has set aside \$12,000,000 of which \$10,000,000 for new construction. Quebec will spend \$11,000,000 for extending, improving and maintaining the provincial system of roads. Maritime will expend \$10,000,000; the Prairie Provinces, \$15,000,000, and British Columbia, \$5,000,000, representing a total of \$57,000,000 spent by provincial governments.

The old gentleman, Father Time, often regarded as somewhat relentless, has had one put over him by the plant breeders at the Government Central Experimental Farm at Ottawa. Two crops of straw are now grown there in each year, one in the open and the other in greenhouses, brilliantly lighted with electric lamps, which have proven to be good substitutes for sun's rays.

CHAPTER XX.—Continued.

"It does," Grandma agreed.

"I wouldn't have believed Sarah could write two lines, to say nothing of six pages, without mentioning Jimmy. It came over her, getting into wonder if maybe he's got into some trouble."

"Trouble!" echoed Grandma in amazement. "What on earth are you driving at, Lizzie Baker?"

Miss Lizzie shook her head dubiously.

It's a country boy, Grandma Davis. He's been brought up secluded, you might say. And they ain't so very far from Hollywood, which is a wicked place, full of vampires and divorcees. If you read the papers as carefully as I do, Grandma, you'd know that Jim is liable to meet temptation."

"And liable to overcome it, if he does," snorted the old lady with indignation. "Don't you get to romancing about Jim, and telling your inventions to every one that comes along. Such stories grow faster'n fireweed on a burned wood lot. Here comes Ezra Bascomb with the mail. You needn't stir, Lizzie; the doctor's getting it. Well, as the young man came inside, 'Where there any letters, or just that catalogue?'"

The doctor greeted Miss Lizzie gallantly, and responded: "There's one for Charman. I'll take it along and leave it at the school."

From behind the caller's broad back he winked at Grandma, and she asked: "Is it a thick one, Doctor?"

"It took two stamps to bring it," he replied.

"Who's it from?" put in Miss Lizzie.

"It seems like an awful extravagance for a person to use two stamps unless it's a matter of life and death. Who can be writing Charman such a long letter, I'd like to ask?"

The doctor laughed and answered: "Then you must ask Charman. There's a heavy penalty for tampering with the U.S.M.I. I'll leave them to the furnace, Grandma, and then be off. If any messages come in just call up Doctor Howe. I'll stop there on my way back."

"I suppose I'd better go," remarked Miss Lizzie, rising. "I left some apples in the oven, and like as not they're burned to cinders. I wish the doctor and Charman would get married."

PAINS

No matter how severe, you can always have immediate relief!

ASPIRIN

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart, harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN

TRADE MARK REG.

W. N. U. 1947

ried, Grandma. It's such a comfort to have a man to tend the furnace. I don't know how he can help him sweat on her, either, livin' right here 'and seein' her every day. Do you think there's hope?"

"We're told that while there's life there's hope, Lizzie," responded Grandma with a chuckle, "but I haven't an idea how Charman would take to your suggestion."

Miss Lizzie sighed, wound the scarf about her neck three times, and fastened the moth-eaten fur above it. "It's this younger generation stuff you read about. In my day, Grandma, a girl would have been considered nothing short of a fool to turn down a fine young man like Doctor Carter—and Charman's no fool."

"You're right," admitted Grandma, "my girl's no fool," then added to herself as she watched her caller waddle across the street, "and so far as I know, she hasn't turned him down."

CHAPTER XXI.

Charman was buttoning the last small Wickfielder into his coat when the schoolhouse door opened to admit John Carter. The girl looked up with a smile as she finished her task, and the doctor, pulling off his gloves, went to the stove to warm his hands. Charman sped her pupil on his way, and said, as she closed the door:

"I suppose my chariot awaits me. You're awfully good to me, John. I'm third today, and thankful to escape the walk."

"So you really admit you're tired? I'm surprised—after—"

She laughed, and interrupted: "I'm sorry I got myself so tired last night when you were good enough to inquire for my health. I'm all right, truly; but I've been worried about something. That's why I blew up the way I did. I have a beastly temper."

John Carter smiled. Charman said: "Will this ally some of that worry?"

He produced Jim's letter and held it out, while Charman, her eyes deepened, the smaller penmanship, drew a relieved breath and the color flamed gloriously in her cheeks.

"When did it come?"

The question was treacherous because she seemed to feel the doctor's eyes flashed into her head, in an effort to read the thoughts therein.

"Ezra left it as I was starting. I'm going to South Wickfield for a call. Perhaps you'd rather stay here till I get back and read your missive in peace—I see it's lengthy—or you can peruse it while I see my patient. As a physician, not as a selfish human being (though you might think so), I prescribe the ride."

Charman hesitated. She longed to read Jim's letter in the solitude of the deserted schoolroom; but on the other hand she needed the fresh air, and since John had been kind enough to stop for her, it seemed discourteous not to accompany him.

"It ain't rightfully cold," she questioned, with a glance at her old sister. A fresh leak in the back hall plus an extra ton of coal, had made the new coat impossible at Christmas time.

"I've got a wrap for you outside. I'll bring it in and warm it."

He was away, and Charman tore open her letter, glancing first at the ending, her ears alert for the doctor's returning step. "Yours always, Jim," was what she read, and her heart lost some of its burden at the friendly words. Jim wasn't mad, anyway! The missive was stuffed into her pocket when John returned bearing a heavy ulster of his own.

"This will go over yours, and you'll be warm as toast. It's really a glorious winter day, Charman, no wind and a clear sky. I left your grandmother in close confab with Lizzie Baker, so she's not lonely; and anyhow, she knew I was going to bring you home so she won't worry if you're a trifle late. There! You look like—"

He laughed as he buttoned the top button close under her chin, and Charman asked: "Like poor, dear Miss Lizzie? Help me turn back these sleeves, John. Now I'm ready. Will you lock the door, please?"

He obeyed, and said as he tucked the robe carefully around her: "If you're tired, don't talk. Just rest your eyes on the landscape or close them if you prefer. I won't chatter."

Charman smiled.

"That sounds like an echo. Jim Bennett said almost those same words one day last fall when he picked me up. I'd had some trouble with Deacon Purdie, and was all in. I

think the deacon was trying to get even with us about those beads, John, and used one of Louella's boys as the scapegoat. I was scared to death for fear I'd lose my job."

"And you never spoke of it at home! Why not?"

"It would have worried Grandma because she was responsible for that shrewd bargain. Besides, it wasn't necessary. Jim fixed it—somehow. Uncle George Knowles asked me what I'd do without Jim to fight my battles; but I suppose when we lose something we've always had and counted on, we just have to make the best of it, don't we?"

The doctor didn't answer this question; but after a moment he broke the silence by saying: "I didn't know that Mr. Knowles was your uncle, Charman?"

"He's not, by law—only by love," she answered. "Jim and I have always called him Uncle George. Jim's father was his closest friend, you know; and as for me—well, he always wanted a daughter and never had one, so that explains it. He can't get over the fact that none of his boys sell for more than his father's looking up with a smile in her blue eyes."

"They must be morose, all three of 'em," responded the M.D. with becoming gallantry.

"Far from it! They're making names for themselves, those boys. I think I was too much like a sister to them—they'd always had me hanging round. Then, too, George Junior was a bit odd; and Sid was too young; and Bill, Jim's chum, never had eyes for me or one but Madge Miller. I wish you knew her, John. She's a wonder, and my best friend; but she hasn't been much use to me since she married Bill and went to live in Indianapolis! He's on a paper there, and doing splendidly."

"I seem to have learned some Wickfield history," smiled John Carter. "Here's where I stop. I'm likely to be a good half hour. Are you warm enough?"

"Snug as a bug in a rug, as Grandma says. Don't have me on your mind a minute."

"Easier said than done, I fear," he answered, his gray eyes smiling; and as he turned away the girl drew out her letter.

She read: "When I got back from a three weeks' trip hunting a fruit ranch, and found your letter stuffed into the slit in our front door (it must have been left there before the post office got word to forward mail). I swore a deep, dark, terrible, bloody oath that would have turned my mother's hair quite white if she had read it. And after I read what you had to say to me, only my dyed-in-the-wool New England caution saved me from sending you a telegram that would have broken the bank at Monte Carlo—not caution at the expense, of course, of understanding—but on your own, Charman, that a telegram in Wickfield is about as private a matter as the Grand Central Station is in New York. . . . Hence my caution. I wish . . ."

Charman closed her eyes a moment. They had melted unexpectedly, and she wanted to wink the mist away and go on reading. The letter sounded so much like Jim! she told herself foolishly; and then laughed at the thought. How silly she'd been to worry about his silence! What an idiot to think he could be angry, or not care enough to write!

(To Be Continued.)

Minard's Liniment gives quick relief.

Brazil is stopping all expenditures on public works.

Iceland's imports last year totaled nearly \$15,000,000.

Remove all callouses and enlargements from your stock shoes with Egyptian Liniment, a wonderful remedy.

Argentina Wheat

Maintaining Lead Over United States in Shipments To Britain

Argentina is maintaining a steady lead over the United States in wheat shipments to Great Britain. England's import figures for that cereal recently made public revealed.

Shipments from Argentina reached their peak last year when the South American republic's total was \$4,774,496 bushels against America's 41,563,124.

This year's figures to June 30 were, United States 12,204,102, Argentina 19,187,020, while in 1928 the figures were Argentina 45,545,360, and United States 44,170,068.

Her Three Children

Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extinct of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now if my children are troubled that way when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Millburn Co., Ltd., Toronto, Ont.

Authorities Are Puzzled

Condemned Man In Estonian Chose Of Canning Fruits and Recovered

Serge Vasilanko's stomach has literally saved his neck.

Sentenced to death, Vasilanko was given his choice between the poison cup and the noose, according to Estonian law. He chose the hemlock draught, in true Socratic fashion, drained it to its bitter dregs—and then refused to die. Languishing for some weeks in the hospital, his sturdy body battling the poison, Vasilanko finally rose from his bed a few days ago, fully alive.

The authorities were puzzled. There was no precedent for this. They had given the prescribed dose, but the man still lived. Courteously they offered Vasilanko the business end of a hangman's rope, but he sent regrets.

"I have complied with the law to the letter," he said. "I see no reason why the ceremony should be repeated."

And until someone finds a reason to the contrary, Vasilanko lives, free man, with a stomach to be proud of.

Warship Saves Woman's Life

Exciting Race Of Australian Warship "Anzac" In Teeth Of A Tempest

The exciting race of the Australian warship "Anzac" in the teeth of a tornado to save the life of a light-house keeper's wife has thrilled Australia.

When word was received that Florence Broderick, pretty 21-year-old wife of the lightkeeper of Gabo Island, was dying, the "Anzac" was ordered to sea with a surgeon. After being battered by the storm, and swept from east to end by mountainous seas, the warship hove to off the barren island.

Bluejackets rowed the surgeon through the surf to the rocky shore and all that night he remained at the woman's bedside. In the morning he was able to report that the crisis had passed and the patient was out of danger.

A pleasant medicine for children is Mother Graves' Worm Expeller, and it is excellent for driving worms from the system.

Alberta Development Board

Southern Section Has a Fine Record Of Achievements

"The Alberta Development Board, southern section, enters the third year of its operation with a fine record of achievement," says the Calgary Herald, "which is no less remarkable and valuable because it cannot always be reckoned in exact dollars and cents benefit to the people of the communities which it serves." The Board's work covers a wide variety of activities, all designed to make known the attractions and industrial and other opportunities of the area covered.

Remove all callouses and enlargements from your stock shoes with Egyptian Liniment, a wonderful remedy.

Little Helps For This Week

"Let every man prove his own work, and then shall he have rejoicing in himself alone, and not in another."—Galatians vi. 4.

Nor serve us only when we gird Our hearts for special ministry; That creature best has ministered Which is what it was meant to be.

"I have desired," says King Alfred the Great, "to live worthily while I have lived, and after my life to leave the men that would be after me a remembrance in good words." How lofty the simple words! Alas! Duty, not romantic achievement, is the aim of his life; not to do some "great thing," but the right things, the right thing being simply what God gave him to do. He seems to have felt his inmost being that each man was sent into the world, not to live like some one else, but to do his own work and bear his own burden, precisely the same words which God gave him, and which can never be given to or done by another.

—Elizabeth Charles.

Terribly Weak

Strength Regained Through the Use of Dr. Williams' Pink Pills

"After the birth of my baby I was terribly weak," says Mrs. Joe. Morone, Dupuy, Que. "and could not sleep or do my housework. I was despondent and was afraid I would be a constant invalid. I began taking Dr. Williams' Pink Pills, and before long my health was restored and I could do my housework without fatigue. Since then I have used these Pills on two other occasions with splendid results."

Dr. Williams' Pink Pills enrich and purify the blood. That is why better sleep, steady nerves, increased appetite and increased vigor follow their use—all these can be yours if you start treatment today. The Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Construction Contracts

The month of June showed an increase of 16.7 per cent in the value of construction contracts awarded throughout Canada, says "McLean Building Reports." Awards were greatest in the business buildings classification, 37.1 per cent. of all construction came in this group.

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach, and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a box of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkinson, Box 14, Thornloe, Ontario.

Lydia E. Pinkham's Vegetable Compound

Grand Prize, Barrie Shield—Warden school 1; Lucknow 2, Mewasin 3d, Cottage Lake 4, Rosenthal 5, Blueberry 6, Carvel 7, Spruce Grove and Comet equal.

Boy securing highest points Conrad Kaiser.

Girl securing highest points—Hilda Kuhl.

School with largest group on the grounds—Cottage Lake 1, Warden 2, Lucknow.

Best Float—W Pawlyk 1, Teddy Zuts 2, Stan Beatham 3.

Bright Bank Briefs

The picnic at Hansen's Corner was taken in by quite a number of Bright Bank farmers. A fine day was spent, after a real picnic dinner under the trees near the river, about a hundred put on their bathing suits, a few wore their kilts apparently getting in shape for the big Scotch gathering. Water sports of all description were on the program. Mr. Erickson won the mens swimming race. The boys race was won by Claude McDonald. The log riding contest was considered a tie between Mr. McCloud, A. McDonald and H. Summerfield. The boys running race was won by D. McDonald.

After supper all went home, well pleased with the day spent and the hospitality accorded them by Mr. and Mrs. McCloud on whose farm the event took place.

This Week's Poem.

Three Generations of Golfers

Golfers, like poets, are born, even though, unlike poets, they are also made. But when a six-year-old girl makes a par-four hole in seven including a drive across the Spray River, and when her mother at 17 was golf champion of Alberta, and when, further, her grandfather is the professional at the Banff Springs Golf Course—why then, you have to allow a little something for heredity. The above data cover the facts in the case of Lois Dalgleish, 6-year-old daughter of Mrs. Peggy Dalgleish and granddaughter of William "Bill" Thomson, professional at the Banff Springs Golf Course since 1910.

"Start them young" is a good rule in any sport, but is particularly applicable to golf. Lois' mother

began her golfing career at six but Lois herself commenced at four, when her grandfather purchased diminutive specially made clubs for the baby hands and spent hours of patient training with her—hours of spontaneously invented methods of teaching. The result is that a child of barely school age is doing what many adults and in fact many golfers cannot do, namely, making par four holes in seven strokes while her putting is beautiful to watch.

Lay-out shows the spectacular drive across the Spray River which features the Banff Springs Golf Course; the three golfing generations; Lois swinging for the drive across the river; and Lois putting—true as a die.
